

The Total Home Solutions Team: (L to R) Scott Mosby, Kelly Layton, Rich Layton and Doug Kropp.

Mosby Building Arts Improves Lives With Knowledge-Based Solutions

As Mosby Building Arts (MBA) approaches its 60th anniversary, they've strengthened their commitment to insightful architecture and responsible remodeling by adding a second downtown Kirkwood office, and unveiling a new company logo and look. They've also expanded services to include Total Home Solutions and Healthy House Evaluation programs.

MBA president Scott Mosby is an expert in the building technology field, and hosts the "KMOX Home Improvement Show" (Saturdays, 11 a.m. to 1 p.m.), a forum that provides answers to listeners' home care questions. Mosby's Total Home Solutions – an expanded small projects and repairs service – grew from the need for homeowners to find reliable and accurate solutions for their persistent home repair problems.

A house is a system of physical components operating in tandem. One malfunction can affect multiple areas, which requires knowledge beyond a simple

patch job. The Mosby team will diagnose and repair all performance aspects of your home to keep it functioning properly.

Mosby also offers Healthy House Evaluations. Utilizing thermal radar technology and other energy industry practices, they thoroughly examine your home's energy efficiency to determine which improvements will make your house safe and healthy while significantly reducing energy bills.

"Our desire to be the 'smartest guys' in the industry is what compels us to improve our practice," said Scott. "We believe in self-guided knowledge to achieve enduring quality. We help families realize that it's a wise decision to improve and repair their homes to better suit their ever-changing needs and lifestyles. Our business works for you because we're accountable to you."

From maintenance and repairs to architecture and remodeling, all the knowledge, performance and service you need is under the Mosby Building Arts roof.
