

“ WE NOW HAVE A BEAUTIFUL, SAFE, AND EASILY ACCESSIBLE BATHROOM. THANK YOU MOSBY BUILDING ARTS FOR SHARING OUR VISION AND MAKING IT HAPPEN! ”

A MOSBY SUCCESS STORY

THIS HOME – AND ITS OWNERS – GET BETTER WITH AGE

CHALLENGE: REDESIGN A MASTER BATHROOM.

After raising a family, this St. Louis couple decided that both they and their home were ready for the next phases of life. The Home Life Planning (HLP) experts at Mosby were chosen to redesign the master bathroom to allow for convenient and easy access, now and in the future. The couple learned about Mosby’s approach to Mobility & Universal Design, which designs spaces to be used by people of all ages and abilities. Mosby HLP creates ease-of-use for all generations, abilities and disabilities.

DIAGNOSIS: ELIMINATE POTENTIAL OBSTACLES, ENHANCE COMFORT AND STYLE.

Backed by the expertise of Scott Mosby, who is recognized as a Certified Aging In-Place Specialist (CAPS) and Mobility Expert the couple worked with Mosby to create a master bedroom environment to deliver comfort, safety, self-reliance, and style. The remodeling goal was to make the house a perfect example of mobility, and as attractive as it is functional. The homeowners teamed with Mosby to build an inspired design for their present and future needs.

CORRECTION: A LONG-TERM SOLUTION AND PEACE OF MIND.

The end result is a perfect combination of form, function and style. For convenience and accessibility, the bathroom is redesigned into two spaces. The cabinetry features include under-counter access that accommodates a chair or wheelchair. In the low-curb shower, a teak wood bench provides sit-down support and retracts when not in use. In addition, grab bars attractively coordinate with the faucet fixtures, including a hand-held showerhead. The toilet features a motion-sensitive lid lift with easy access, push-button controls. Comfort details include a recessed niche for a radio, and a towel warming rack. Finally, grab bars above the toilet match the style and design of those in the shower. At first glance, this is a beautifully updated master bath. This new space cares for the families’ present and future needs.
