

“ MOSBY LISTENED TO US AND WE LISTENED TO MOSBY. TOGETHER WE CREATED AN INCREDIBLE KITCHEN AREA THAT HAS BECOME THE HEART OF OUR HOME. ”

## A MOSBY SUCCESS STORY

### A KITCHEN BECOMES THE HEART OF A HOME

#### **CHALLENGE: RECONFIGURE LIVING SPACE TO MAKE A KITCHEN MORE INVITING.**

Homeowners decided they wanted to redesign their kitchen to make it the centerpiece of their home and they decided to work with the Mosby home enhancement team to develop ideas and answers. The house, built in 1985, had a dining room separate from the kitchen and the homeowners were seeking a more open, connected design. The owners also wanted to bring the washer and dryer – plus more light – into the new kitchen.

#### **DIAGNOSIS: CREATE AN OPEN, CONNECTED DESIGN.**

The homeowners were attracted to Mosby Building Arts for reliable home enhancement answers. They appreciated how the Mosby experts took the time to carefully listen to their vision and goals for their kitchen, and also evaluate the entire house. After comparing notes and careful evaluation, the Mosby team designed a plan that removed the wall between the kitchen and dining room and created one free-flow space. For added accessibility and “openness”, another passageway was recommended from the kitchen into the family room.

#### **CORRECTION: THIS HOMEOWNER’S DREAM BECOMES AN AWARD-WINNING KITCHEN.**

The Mosby team went to work and created an open kitchen configuration. The new space features a washer and dryer – cleverly hidden in a hutch cabinet – and increased the natural light into the kitchen. The centerpiece is a unique, granite-top peninsula that is both functional and beautiful. A new wet bar features a copper sink and black marble counter. A cooktop range has a unique pop-up exhaust fan. Plus, the refrigerator, oven and microwave are conveniently lined up on one bank of cabinets. With these and many other amenities included in the kitchen redesign, the homeowners and Mosby were honored with a 2009 Homer Award for Outstanding Interior Renovation! “This truly has become the heart of our home,” said the homeowner. “Mosby listened to us and we listened to Mosby. It was a collaborative effort that gave us the kitchen of our dreams!”
